Summary

I'm a Full Stack developer with over 3 years of experience, specializing in creating customized websites that align with clients' unique needs. My technical skills span a range of technologies, including HTML, CSS, and JavaScript, as well as advanced frameworks like ReactJS, NextJS, Svelte, and SvelteKit. I ensure secure and seamless back-end functionalities using tools like NodeJS, ExpressJS, and MongoDB.

I also have experience with various platforms, from WordPress and Shopify to Wix, enabling me to create online stores, user-friendly websites, and content management systems that fit your business goals. My approach is collaborative, ensuring clear communication to understand project requirements thoroughly.

I stay updated with the latest web development trends to offer innovative solutions. My focus is on building websites that provide a great user experience and meet business needs, whether you're just starting or are a seasoned tech enthusiast.
